

Akshay Vishwakarma

Full Stack Developer

7709123609 | akshayvishwakarma770@gmail.com

Full Stack Developer with 1+ year of experience building scalable web applications. Using Java Spring Boot, and modern frontend technologies. Proficient in developing RESTful APIs, implementing Spring Security, JPA/Hibernate, and working with event-driven architectures using Apache Kafka. Experienced in frontend-backend integration, database design, and building secure, high-performance applications.

Skills

- **Backend:** Java, Spring Boot, Spring Security, Spring MVC, Spring Cloud, PHP, Python, NodeJS.
- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS, AJAX, Bootstrap.
- **Architecture:** Microservices, REST APIs, Event-Driven Architecture, MVC.
- **Messaging & Streaming:** Apache Kafka.
- **Security:** JWT, Role-Based Access Control (RBAC).
- **Databases:** MySQL, PostgreSQL, JPA/Hibernate.
- **Tools & Platforms:** Docker, Git, Maven, Postman.
- **Concepts:** Database Design, APIs Development, Authentication Systems, System Integration.

Professional Experience

Full Stack Developer

Magical Balloons, Mumbai

Jan 2025 - Present

- Developed scalable **backend systems** and ensured seamless **frontend integration**.
- Built **RESTful APIs** for efficient **frontend communication** and **third-party integrations**.
- Designed and optimized **relational databases** for **performance** and **data integrity**.
- Implemented **secure authentication** and **role-based authorization** mechanisms.
- Resolved **production issues**, improving **system reliability** and **performance**.
- Collaborated with **cross-functional teams** to deliver **business-aligned solutions**.

Java Spring Boot Projects

Fitness Management – Microservices System

GitHub: [AK1715/MicroService-of-Java-Fitness-Management](#)

- Developed a **microservices-based fitness application** using **Spring Boot** with independent services communicating via **REST APIs**.
- Implemented **centralized configuration management** using **Spring Cloud Config Server** and **service discovery** with **Eureka**.
- Secured all microservices using **OAuth2** and implemented **API Gateway** as single-entry point.
- Integrated **Apache Kafka** for **asynchronous, event-driven communication** between services.
- Designed **scalable architecture** with **loose coupling** and **fault-tolerant service communication**.

Fitness Tracker Secure REST API with Spring Security

GitHub: [AK1715/fitness-monolith](#)

- Built **Spring Boot REST API** with **JWT-based authentication** and **Role-Based Access Control (RBAC)** using **Spring Security**.
- Implemented **data persistence** with **PostgreSQL** using **JPA/Hibernate**, optimizing **database operations**.
- Containerized application using **Docker** and deployed on **Render cloud platform**.
- Integrated **Swagger** for comprehensive **API documentation** and **testing**.
- Designed **secure endpoints** with proper **validation** and **exception handling**.

Education

Bachelor of Computer Application (BCA)

Yashwantrao Chavan Maharashtra Open University

2021 - 2024
